

# BUILDING & GROUNDS - Dumpsters/Docks

Odor Control and dumpsters go hand and hand. Not to worry - we have options for you to consider. Let us show you!

## **TOUGH STUFF** ADVANCED FORMULA

### **CLEANER & DEGREASER**

A commercial grade cleaner that is amazing to watch in action. It removes rust stains from a variety of surfaces. The bleed off from rod iron rails and fences, the constant over spray from sprinkler head on painted concrete, PVC fences, painted steps, etc..

## **RED HOT** ADVANCED FORMULA

### **HEAVY DUTY DEGREASER**

By far, the best Graffiti Remover from rough surfaces on the market today. Simply spray or brush it on...let it set up and then power wash it off. (Check out their site & their video) <http://www.taginator.com>

## **DOCKCIDE** ADVANCED FORMULA

### **ONE-STEP CLEANER & ODOR NEUTRALIZER**

DOCKCIDE is a one-step cleaner/degreaser for loading docks and dumpsters and at the same time provides an odor control agent on the surfaced cleaned. It was developed based on 30 years of experience in the odor control industry. The odor control agent is designed to not mask the odor, but to neutralize it at the source.
